Executive Summary

The **Balanced Scorecard Implementation Program** is a comprehensive executive training designed to help organizations translate strategy into measurable performance outcomes. The program introduces participants to the globally recognized Balanced Scorecard framework developed by Robert S. Kaplan and David P. Norton, enabling leaders to align strategic objectives with operational execution. Through practical workshops and real-world case studies, participants will learn how to design strategy maps, develop meaningful KPIs, and integrate performance measurement systems across their organizations. The program also explores modern digital performance management tools, analytics dashboards, and data-driven decision-making practices. By the end of the program, participants will be equipped to implement a sustainable Balanced Scorecard system that drives accountability, strategic alignment, and long-term organizational success.
