Executive Summary

The Data Privacy & GDPR Compliance program provides a comprehensive framework for managing personal data in accordance with global data protection regulations, particularly the General Data Protection Regulation (GDPR). It equips participants with the knowledge and tools required to ensure lawful data processing, protect individual privacy rights, and maintain organizational compliance. The program emphasizes a risk-based and accountability-driven approach, integrating data governance, security measures, and regulatory requirements into daily operations. Participants will gain practical insights into data lifecycle management, privacy risk assessments, and breach response procedures. Through real-world case studies and practical applications, the course enables professionals to strengthen data protection practices, reduce regulatory risks, and build trust with stakeholders.
