Executive Summary

The Digital Compliance & Cybersecurity Regulations program provides a comprehensive framework for managing digital risks and ensuring compliance with global cybersecurity and data protection standards. It equips participants with the knowledge and tools required to navigate the evolving landscape of digital regulations and safeguard organizational information assets. The program emphasizes a risk-based approach to cybersecurity governance, integrating regulatory requirements with practical security controls and best practices. Participants will gain insights into key frameworks such as data protection laws, information security standards, and cyber risk management strategies. Through real-world case studies and practical applications, the course enables professionals to strengthen digital resilience, ensure regulatory compliance, and protect organizations from cyber threats and data breaches.

Program Element	Details
Duration	5 Days (40 Hours)
