## Executive Summary

The Financial Risk Management & Mitigation program is designed to equip professionals with the expertise to identify, assess, and manage financial risks in dynamic business environments. It provides a comprehensive understanding of market, credit, liquidity, and operational risks, along with modern mitigation strategies. Participants will explore quantitative and qualitative risk assessment tools, including scenario analysis and stress testing. The program integrates real-world applications, regulatory perspectives, and emerging technologies such as AI in risk analytics. By the end of the program, attendees will be able to design effective risk management frameworks that enhance organizational resilience and financial stability.
