Executive Summary

This program delivers a globally recognized foundation in occupational health and safety, aligned with the principles of IOSH Managing Safely. It equips managers and supervisors with the knowledge and practical tools required to effectively manage health and safety responsibilities within their teams. The course focuses on integrating risk management into daily operations, enabling participants to identify hazards, assess risks, and implement appropriate control measures. It also emphasizes accountability, legal compliance, and the importance of fostering a proactive safety culture. Through interactive exercises and real-world case studies, participants will develop the confidence to apply safety management practices that improve organizational performance and reduce workplace incidents.

Program Element	Details
Duration	5 Days (40 Hours)
