Executive Summary

The ISO 45001 Occupational Health & Safety Management program provides a comprehensive framework for establishing, implementing, and maintaining effective health and safety management systems. It is designed to equip professionals with the knowledge and practical tools required to align organizational practices with internationally recognized ISO 45001 standards. The program focuses on a risk-based approach, enabling participants to identify hazards, assess risks, and implement controls that enhance workplace safety and organizational resilience. It also emphasizes leadership commitment, worker participation, and compliance with legal and regulatory requirements. Through practical workshops and real-world applications, participants will gain the expertise to drive continuous improvement, conduct internal audits, and ensure effective integration of health and safety into overall business operations.

Program Element	Details
Duration	5 Days (40 Hours)
Target Audience	C-Suite Executives, Senior Leaders, Strategy Professionals
Delivery Options	5★ Hotel Traveling (Global Centers) Training Institute Onsite at Your Location Virtual Live Hybrid
