## Executive Summary

The Industrial Hygiene & Environmental Safety program provides a comprehensive approach to identifying, evaluating, and controlling workplace environmental hazards that impact employee health and safety. It equips participants with the knowledge and tools required to manage exposure to chemical, physical, and biological agents in line with international standards and best practices. The program emphasizes proactive monitoring, risk assessment, and implementation of effective control measures to ensure a safe and healthy work environment. Participants will gain practical insights into air quality management, noise control, hazardous substances handling, and environmental protection strategies. Through real-world case studies and practical applications, the course enables professionals to enhance occupational health performance, ensure regulatory compliance, and support sustainable workplace practices.

Program Element	Details
<b>Duration</b>	5 Days (40 Hours)
<b>Target Audience</b>	C-Suite Executives, Senior Leaders, Strategy Professionals
<b>Delivery Options</b>	5★ Hotel   Traveling (Global Centers)   Training Institute   Onsite at Your Location   Virtual Live   Hybrid
