# Curriculum Structure

The Procurement Analytics & Performance Excellence Program is designed as an intensive 5-day executive learning journey that equips professionals with advanced analytical capabilities and strategic frameworks required to transform procurement into a data-driven value creation function. The program focuses on leveraging procurement analytics, digital tools, and performance measurement systems to improve supplier decisions, optimize spend management, and strengthen supply chain resilience. Through practical workshops, case studies, and real-world procurement datasets, participants will learn how to generate actionable insights, build procurement dashboards, measure supplier performance, and drive continuous improvement in sourcing strategies. By the end of the program, participants will be able to design intelligent procurement systems that enhance transparency, efficiency, and strategic decision-making.
